Title: Need to enhance the capacity of National Fertilizers Limited Unit at Nangal, Punjab.

SHRI PREM SINGH CHANDUMAJRA (ANANDPUR SAHIB) : There is need for expansion of National Fertilizers Limited Unit at Nangal which falls in my Parliamentary constituency Shri Anandpur Sahib, Punjab. The said unit at present produces only 5 lakh metric tonnes of Urea. The capacity can be increased upto 12 lakh Metric tonnes of Urea with only Rs. 5500 crore. The Unit has its own land, gas pipe, water supply and power facility with full infrastructure.

I will urge upon the Government of India to increase its capacity to meet the demand of urea in Punjab, Haryana and Jammu and Kashmir.
